

LE VOYAGEUR

THE EXCEPTION THAT PROVES THE RULE

CULTIVATE THE ART OF TRAVEL... FRENCH-STYLE

Welcome aboard your LE VOYAGEUR motorhome. Get comfortable behind the wheel. You are about to discover a new, exciting and freer way to travel.

Elegant curves, subtly appealing upholstery and avant-garde bodywork all converge to make your motorhome the very essence of French know-how.

WHEN THE EXCEPTION PROVES THE RULE

Travelling is all about leaving reality behind to experience a dream come true. A dream of escape, of exotic destinations where the landscapes defy the imagination, day after day.

But you are no ordinary traveller, you're a Le Voyageur traveller, and you demand nothing less than an incredible, perfect trip.

So you're going to need an ideal travel companion, one who can guide you all around the world in comfort and safety. That companion is LE VOYAGEUR. As unique and demanding as you when it comes to exceptional travel.

TOGETHER, LET'S BRING THIS DREAM TO LIFE

From dream to reality, there's just one step. Tell us your dream and we will make it come true. Do you dream of a light-filled space, a secure and protective cocoon, a warm and welcoming place in which to share precious moments?

Then let's work together to decide what your ideal travel companion would look like: dimensions, layouts, equipment, interior styles and finishes... To create something exceptional, you have to rewrite the rulebook!

EXCEPTIONAL IS WHAT WE DO

Driven by a deep desire to perpetuate the excellence of French craftsmanship, our employees have only one objective: to make 'the exceptional' our number one rule.

From the design office to the workshop, our motorhomes are exclusively developed and manufactured in Angers, western France. Aerodynamic design, driving comfort, road handling and finishes: to us, every detail matters.

That's why 45 of our leading experts will be mobilised to turn your dream of perfection into a reality that is every bit as extraordinary.

PASSION BREEDS EXCEPTION

Our Classic and Signature ranges are inspired by the wish to create an exceptional vehicle dedicated to satisfying our most demanding customers. However, when it comes to producing something exceptional, know-how and technical expertise alone are not enough.

What gives every one of our motorhomes its unique character is not the purity of its design or the reliability of its technology. Our work is exceptional because it has a soul. The soul of true enthusiasts, always willing to devote their talents and energies to the attainment of genuine perfection.

"What I love about my job is putting together an exceptional and prestigious product which will satisfy its owner's craving for escape and adventure. I feel that I'm helping in my own way to make this dream come true."

Paul, LE VOYAGEUR dream maker for the last 5 years

"Time devoted to my passion, working with materials, making something sublime from them. Shaping, sanding, taking the time to ensure a perfect finish, so that every assembled part helps bring a LE VOYAGEUR to life."

Marie, passionate about LE VOYAGEUR for the last 8 years

"I have always wanted to design a product with real meaning. By co-designing the LE VOYAGEUR with each customer, every detail, every layout is exceptional and unique. I like to exceed myself again and again when planning out the future living space of our customers, and above all sharing their pleasure as they discover their ideal travel companion."

Stéphane, LE VOYAGEUR co-designer for the last 15 years

DRIVING REINVENTED

With the FIAT Euro 6D engine range (140 to 180 hp) featuring an AL-KO® chassis and new automatic nine-speed transmission, hitting the road becomes a real pleasure.

More power, thanks to an even higher level of torque (as much as +12.5%), plus more economical and environmentally friendly driving thanks to its VGTs (Variable-Geometry Turbochargers).

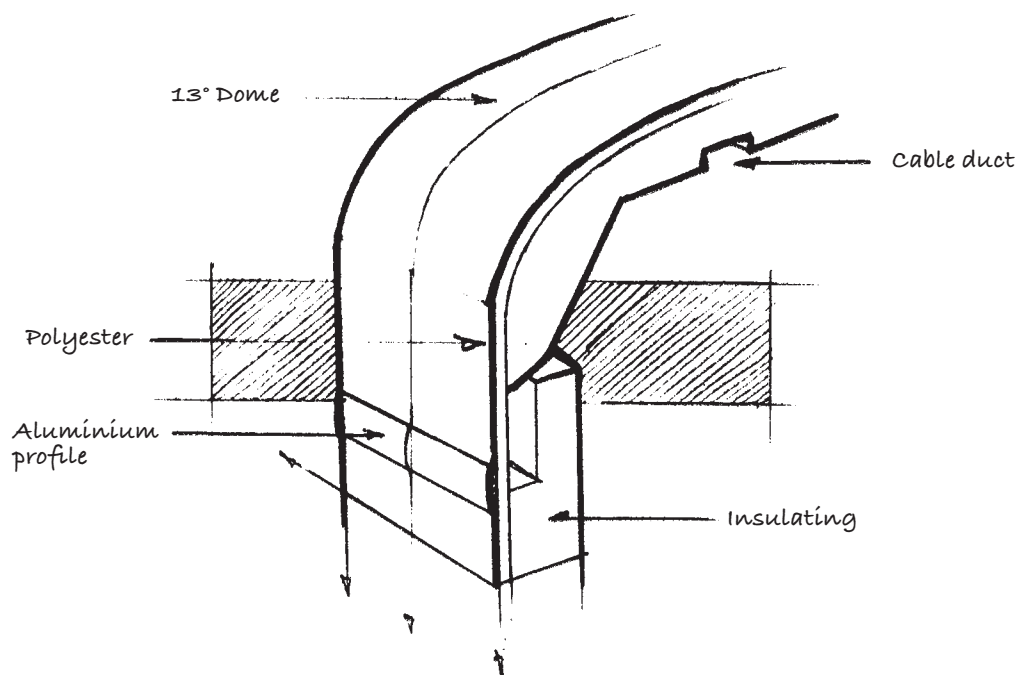

AN INTELLIGENT DESIGN

The intelligent double floor of your Classic motorhome protects you from the cold, ensuring optimal comfort whatever the season. As well as protecting the fresh and wastewater tanks from frost, this double floor, with a height of 26 cm, can be used to store lots of items, thereby freeing up as much space as possible in your LE VOYAGEUR. The walls are mainly composed of aluminium, offering you a 30% improvement in heat diffusion compared to plywood.

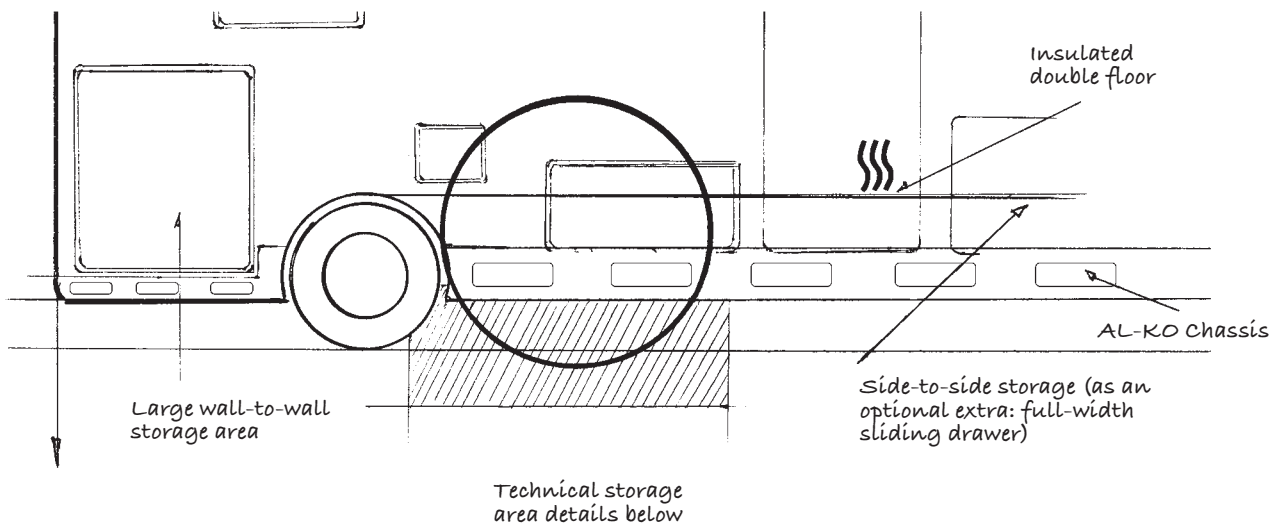

DOMED ROOF

EXCLUSIVELY IN EUROPE:

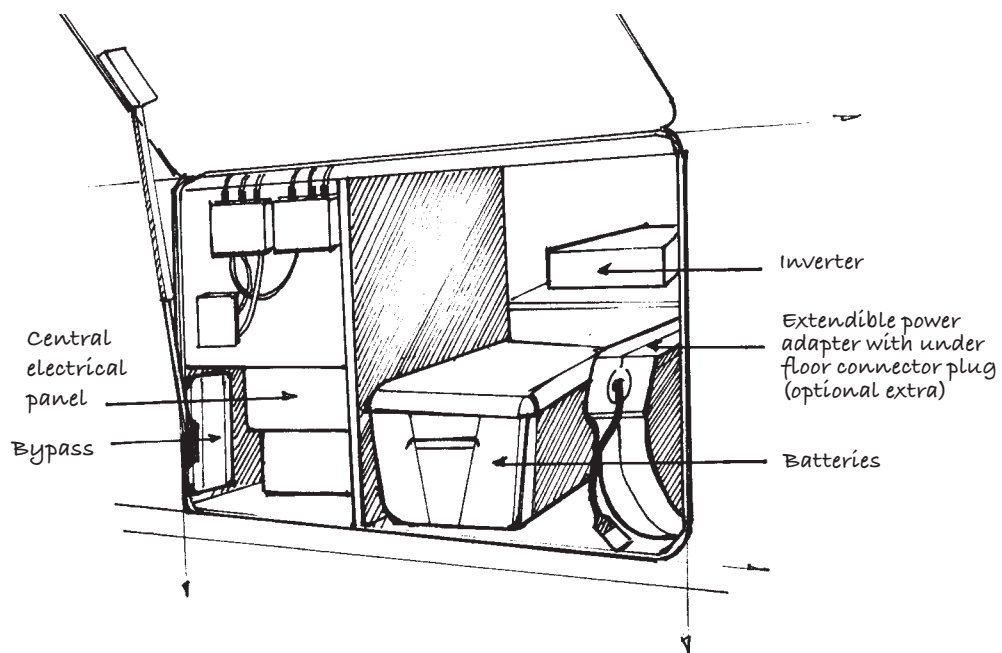

A MULTI-FUNCTIONAL DOUBLE FLOOR

Well insulated and heated, the double floor retains and radiates warmth just like classic underfloor heating.

TRAVEL FAR AND WIDE, IN ALL SEASONS

Enjoy additional storage units as well as easier, fully secure access to the entire electrical system.

COMFORT

AND SAFETY

French luxury is combined with technical expertise to offer you well-being, durability and safety throughout all your travels.

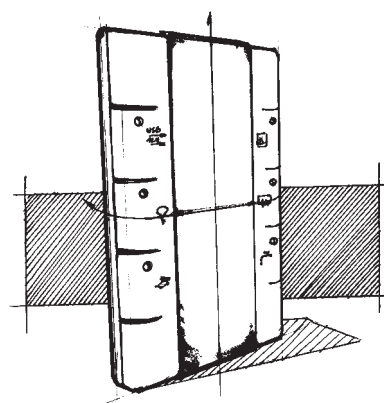

CENTRAL CONTROL UNIT

Choose a single central control unit for managing all the vehicle's functions:

- On/Off switch (heating, lighting, radio, television, USB socket, water pump),
- Light dimming by zone,
- Level indicators (clean water, wastewater, leisure battery),
- TRUMA®/ALDE® heating controls (temperature setting, hot water, electric power, gas).

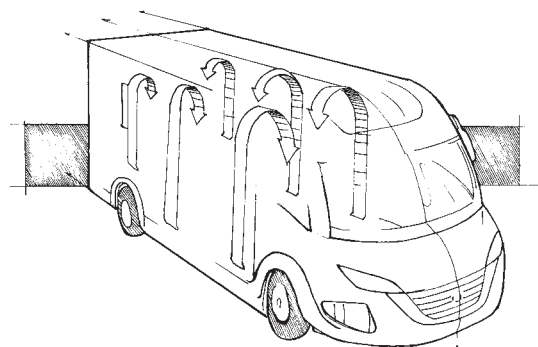

BYPASS

Ensures continuous operation of key functions (heating, refrigerator, water pump, LED lighting, 12 V & USB sockets, and step) in the event of central control unit outage.

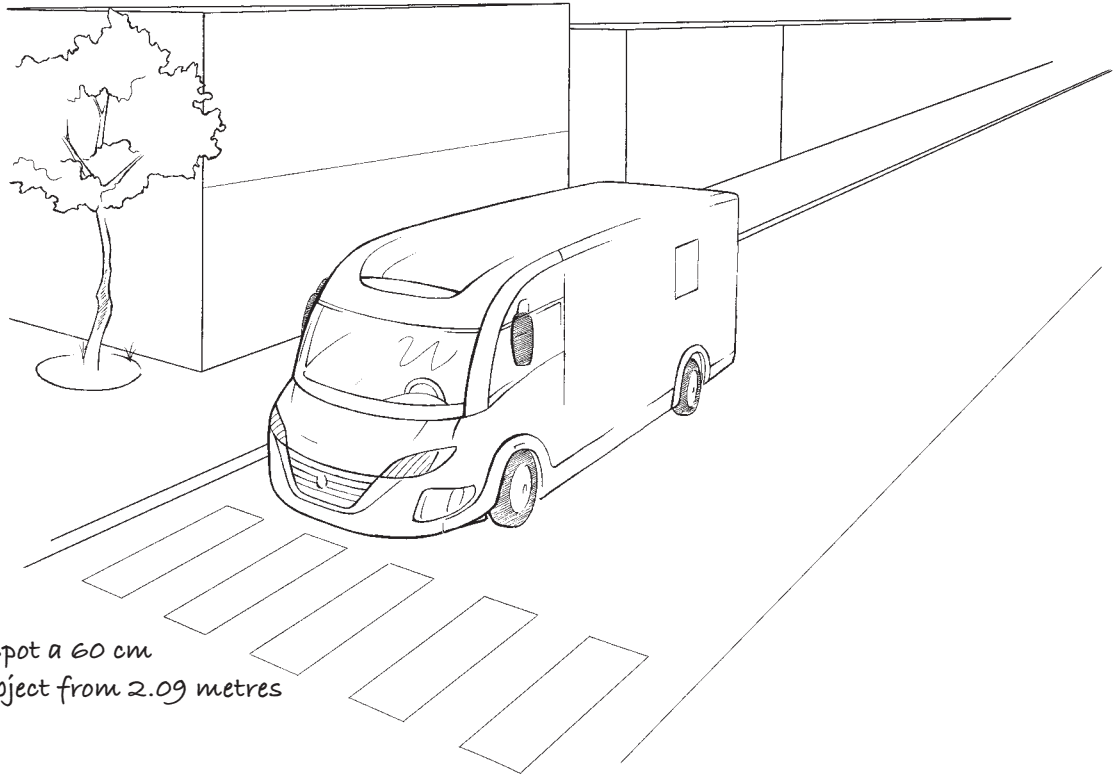

CLASS 3 INSULATION

LE VOYAGEUR is certified Class 3, the best insulation rating on the market, tested and approved by TRUMA® and ALDE®. The interior temperature rises from -15°C to 20°C in less than 4 hours.

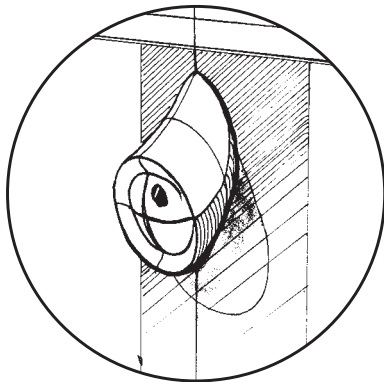

OPTIMUM VISIBILITY

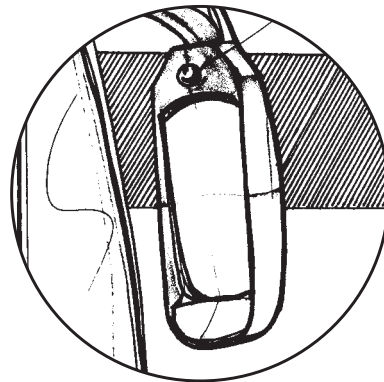

The system is composed of a camera built in to each rear-view mirror and a control screen, divisible into four. The reversing camera is also connected to this screen.

TRAVEL BEYOND THE HORIZON

The 8.5 is known as Le Prestige thanks to its ability to always offer that little bit more.

Available in four different layouts, with an XL hold and a dining area for six guests,

the 8.5 favours generous dimensions. With the added stability that comes with the double axle, this vehicle offers unrivalled comfort thanks also to the generous volume of its living spaces.

LV 8.5 GJF

THE KITCHEN

Ergonomic design and reliable equipment are the essentials of any kitchen. With its two hobs, backsplash equipped with 12 and 230 V sockets, and Turbovent for optimal ventilation, the kitchen in the 8.5 has all the essential ingredients for a pleasurable cooking experience.

THE LOUNGE

Elegant and cosy, the lounge area of the Classic 8.5 motorhome offers a luxurious relaxation space for you and your guests. With its face-to-face bench seat for up to six people and its wide circulation areas, it is ideal for impromptu evenings with friends.

THE BEDROOM

As a central element in any living quarters, the bedroom is a private area which should always be bright, cosy and comfortable. With its island bed equipped with a BULTEX® mattress and a headboard which can be raised to free up more space, the bedroom of the 8.5 meets all your needs.

THE BATHROOM

The bathroom of your Classic 8.5, as well as being separate from the bedroom and lounge, also offers you the privacy you need, being isolated from the toilet by a swing door. Its warm and cosy atmosphere is ideal for enjoying a relaxing evening after a day full of discovery.

THE RANGE

18.0 & 18.5 _____ P. 60-73

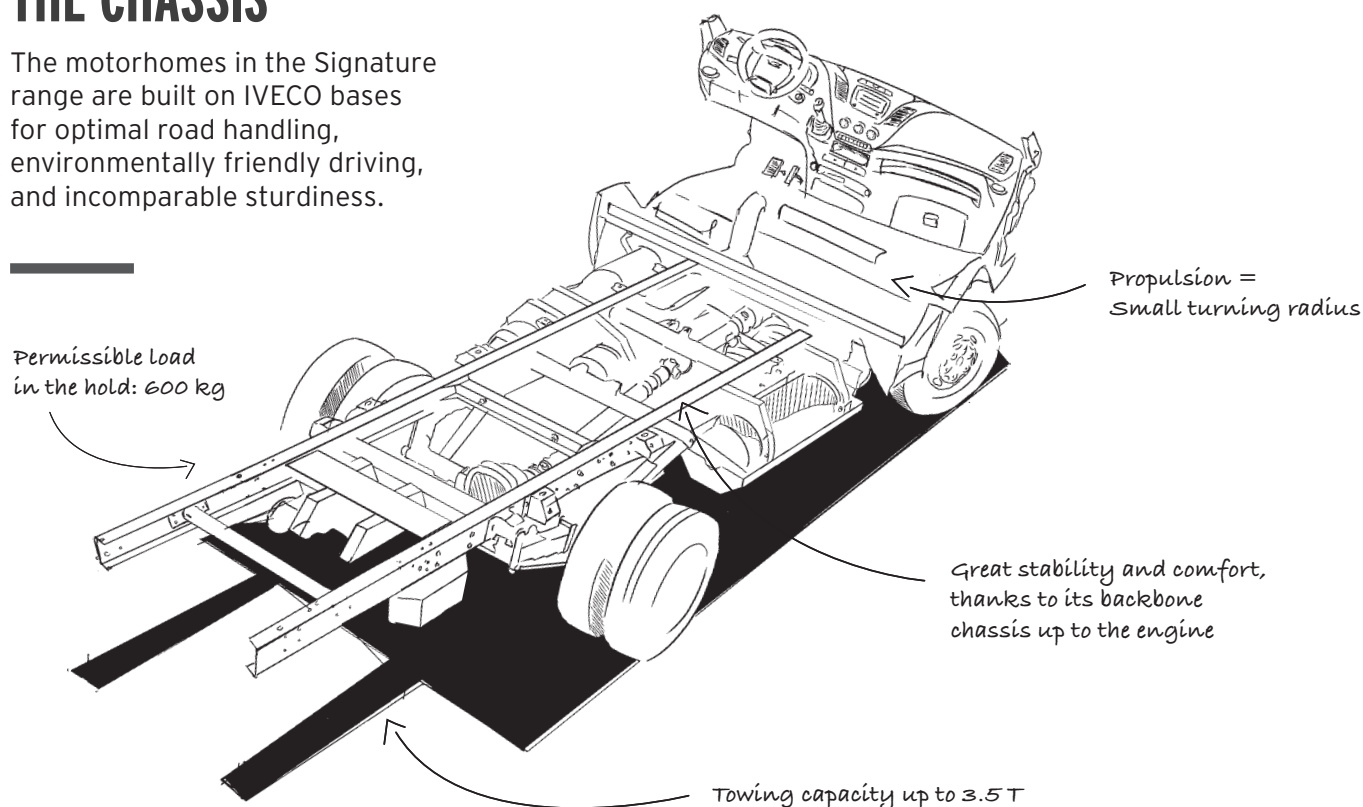

AN UNBEATABLE DRIVING EXPERIENCE

The IVECO® Euro 6D engine boasts a more powerful alternator (220 amps) for faster battery charging.

Thanks to its assisted steering, manoeuvring your motorhome is easy, wherever you are. Eight-speed automatic transmission, hill start assist, active tyre pressure monitoring... All these features ensure smooth and ergonomic driving.

THE CHASSIS

The motorhomes in the Signature range are built on IVECO bases for optimal road handling, environmentally friendly driving, and incomparable sturdiness.

PIONEER CAR RADIO

The Pioneer car radio has one of the best audio quality levels on the market (high-definition voice). Ideal for listening to your favourite audiobook or watching a family movie. Thanks to its 6.2" touchscreen, you can handle your vehicle with the greatest of ease (optional NAVI GPS, two reversing camera inputs).

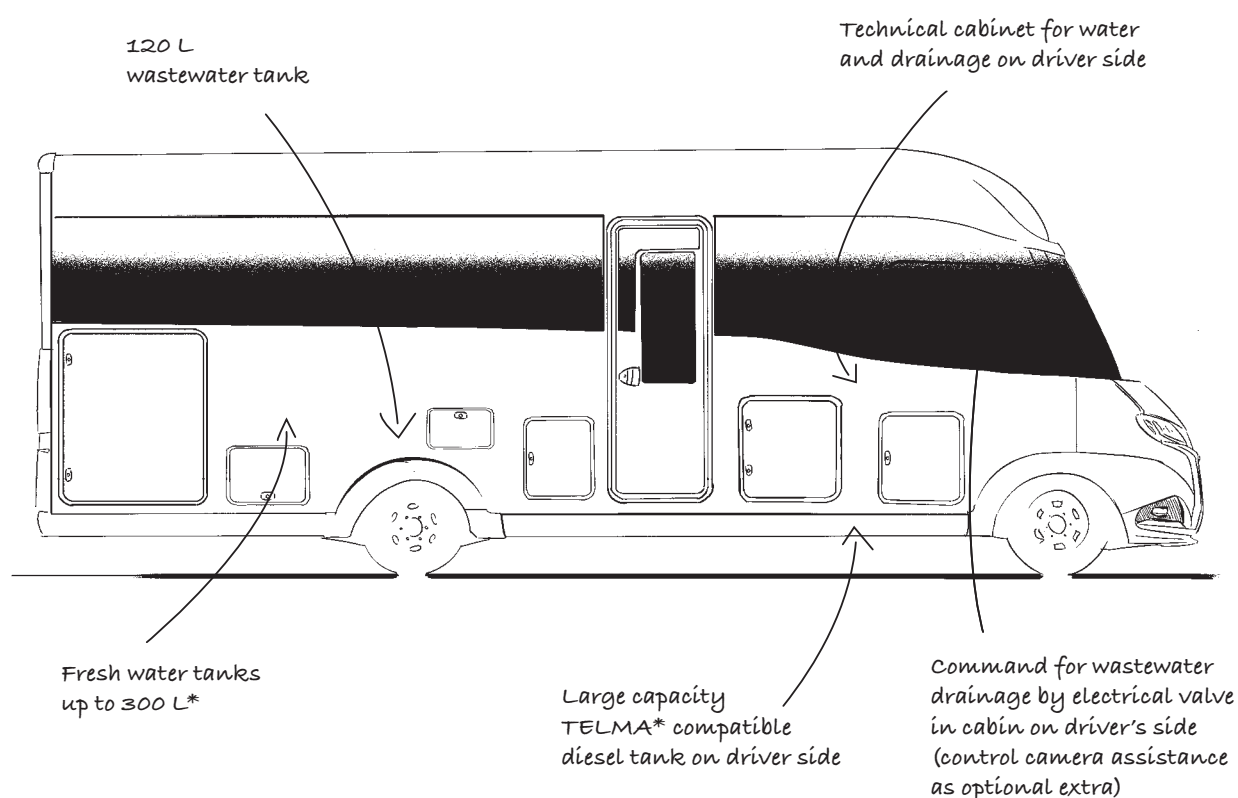

DRIVING COMFORT

The leather steering wheel adapts to your body shape (height and depth adjustable) to give you perfect visibility.

ENERGY AUTONOMY

Your LE VOYAGEUR works tirelessly. Especially when it is equipped with an optional fast-charging Super B battery (fully charged in just 2 hours while driving).

1,600 W INVERTER

Renowned in the sailing sector, the 1,600 W inverter has been thoroughly tried and tested in terms of its performance. Powerful and agile, it pushes the boundaries of autonomy and allows greater versatility for simultaneous use of devices. It includes a pure sinusoid inverter, an adaptive charger, hybrid PowerAssist technology, and a new 210 Ah battery (as an optional extra).

Also available in the Classic range.

*Optional

SMART VISION

Smart Vision (available as an optional extra) is an entirely unique rear-view system which replaces traditional rear-view mirrors with high-definition cameras and control screens positioned inside the vehicle.

Blind spots are eliminated, risks of lateral collision are reduced, and manoeuvring is made easier, day or night. Whatever the weather, it uses technology to eliminate reflections, mist, and glare from sun or headlights.

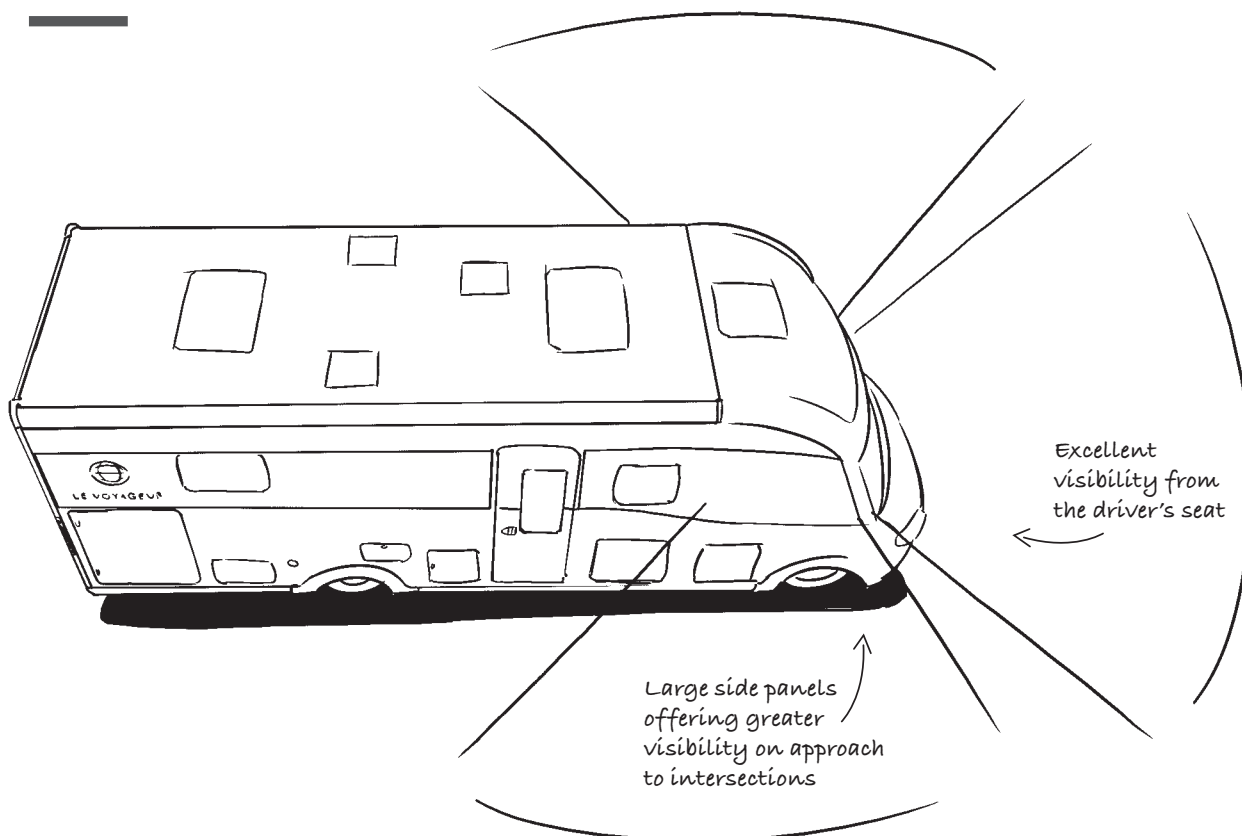

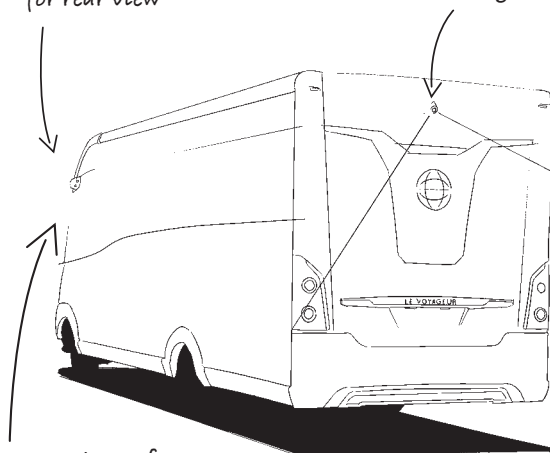

The system also includes a surveillance mode which monitors the area around the vehicle while parked.

Optional overtaking assist: the system configures itself to the length of the vehicle for perfectly smooth driving.

LE VOYAGEUR

THE EXCEPTION THAT PROVES THE RULE

With the production of the original model in 1981,
George Sacier, creator of the first LE VOYAGEUR, pushed the limits
of what was possible to realise his dream: designing a vehicle able
to take you as far as your dreams could stretch - all around the world.
This passion for design, luxury and performance are still
evident in today's LE VOYAGEUR luxury motorhomes,
which enable mobility without borders.
